THE ENLARGED REVIEW.

The REVIEW this week goes to its patrons in an enlarged form which will be maintained in the future. We ask for it not too severe a criticism. It shall be our aim to improve it from week to week, as the present management becomes better acquainted with the people, business interests and conditions in Bisbee and the country tributary to this growing city. We feel very much encouraged by the good words and expressions of good will so far extended, and it shall be our only aim to give to the patrons of the REVIEW a newspaper of which Bisbee will feel proud and which shall be a credit to Cochise county and Arizona.

Being a comparative stranger, as yet, the editor is at a disadvantage in gathering all the local happenings which should appear in the REVIEW and we ask all to report any items of which they may have knowledge at this office, either by letter or in person. Accidents, new buildings, contemplated improvements, deaths, births, entertainments, dances, religious work, all make welcome news, and, when reported, will be highly appreciated by the REVIEW.
